# Supporting the Vision 2030

The European Tooling Industry plays a strategic role in the rejuvenation development and sustainability of the European industrial activity and economy. Tooling is an enabling Industry considering its global impacts being demonstrator for the Advanced Manufacturing Technologies, Industry 4.0 & Digitalization, but also, for the implementation of the Circular Economy Strategies.

The EUROPEAN TOOLING FORUM 2019, gathers European Tooling Representatives (ISTMA Europe), Decision Makers, Researchers, Stakeholders, to present, discuss and define new roots for the next future (HORIZON EUROPE - 2030).
