

Dear ISTMA members,

We are pleased to announce that **FEAMM – Federación Española de Asociaciones Empresariales de Moldistas y Matriceros** – has been officially accepted and recognised as a new ISTMA member, representing Spain.

Founded in 1982 and based currently in Valencia, **FEAMM** serves as a vital link between various regional associations, including ACOVEMM (Valencia), ASAMM (Aragon), ASVAMM (Basque Country), and AGMMA (Galicia). The association plays a key role in fostering collaboration and the exchange of experiences among companies in the mould and die industry, with regular meetings held at rotating locations across the regional associations.

In addition to its collaborative efforts, **FEAMM** represents the sector before government bodies, administrative agencies, and client industries. Its primary focus areas include internationalisation, innovation, sectoral information, and lobbying to support the growth and development of the mould and die sector.

We also take pleasure in acknowledging the Directors and Members of **AGMMA** for the support and contribution they have made to the development of our industry by making this process possible.

For more information, visit their website at [www.feamm.es](http://www.feamm.es)

Please join us in welcoming FEAMM to the ISTMA community!

Best regards

Manuel Oliveira  
(ISTMA Secretariat)
